

The most innovative erosion control and hydroseeding solution on the market.

Game changing ease of handling, mixing, application and performance.

The natural mineral-based science behind Cube™ provides a user-friendly product that is unmatched in the marketplace. It arrives in a much smaller bale and is easier to handle than other conventional products.

It is simple to pour, requires no manual or mechanical shredding and it will not clump. Cube™ instantaneously consumes water which allows for its immediate wet-out and creation of a uniform slurry with minimal water and mixing time.

Our one-of-a-kind performance characteristics include the highest loading rates, no slurry separation (even overnight) and increased speed of application to go along with superb ground coverage. It's truly a game changer!

Incredible savings... for increased bottom line!

Only 75 gallons of water per 50 lb. of Cube!

Load up to 1 ton in a single 3,000 gallon machine!

Cube™ is easier to handle than other conventional products. It's simple to pour, requires no shredding, and will not clump. It consumes water instantaneously, allowing for immediate wet-out and creation of a uniform slurry with minimal water and mixing time.

Cube's unmatched performance characteristics include the highest loading rates, no slurry separation (even overnight), increased application speed and superb ground coverage. It's truly a game changer!

Cube™ Application Rates					
Slope	≤ 5:1	4:1	3:1	2:1	≥ 1:1
Lbs. Per Acre	2,000	2,500	3,000	3,500	4,000
Kg. Per Hectare	2,242	2,803	3,363	3,924	4,484

Cube™ Loading Chart						
		Loads Per Acre – Based On Slope				
Machine Size (Gallons)	Bales Per Load	≤ 5:1	4:1	3:1	2:1	≥ 1:1
500	7	5.7	7.1	8.6	10	11.4
1,000	14	2.9	3.6	4.3	5	5.7
1,500	20	2	2.5	3	3.5	4
3,000	40	1	1.3	1.5	1.8	2
4,000	48	0.8	1	1.3	1.5	1.7

Seed and fertilizer rates depend on regional climate, seed type, soil type, and desired coverage rate. Contact a local seed supplier for local recommendations, or call LSC Environmental Products to help find a supplier in your region.
